EDUCATION

Montclair State University, *College of Science & Mathematics*, Montclair, NJ
B.S. in Information Technology

May 2025

WORK EXPERIENCE

Network Engineering Intern

Montclair State University

January 2025 – May 2025

- Led a team of 4 in configuring and verifying network connectivity across 10+ devices using static IP addressing, DHCP, and ping diagnostics.
- Implemented VLAN segmentation and inter-VLAN routing on Layer 2/3 devices, improving network efficiency and security—demonstrated ability to manage and scale enterprise network infrastructures.
- Deployed and configured firewall rules and Access Control Lists (ACLs) to restrict unauthorized traffic, achieving a 100% block rate on disallowed services (SSH, Telnet)—key experience in network hardening and policy enforcement.
- Assembled and tested Cat6 network cables using RJ45 connectors, crimping tools, and a Tripp Lite 24-Port Patch Panel—ensured 100% signal integrity and compliance with T568A/B standards, reflecting industry-grade precision in structured cabling and physical network setup.

Guest Courtesy Agent

Sojo Spa Club

June 2022 – July 2025

- Delivered exceptional guest experiences through clear communication and quick problem resolution, utilizing internal software systems to track guest interactions and monitor service requests.
- Used technology to communicate SoJo Spa policies, track guest activities, and log any incidents or suspicious activity for the Safety team, ensuring smooth operations.
- Provided technical support for digital kiosks, assisting guests in navigating spa services, amenities, and local attractions while troubleshooting and resolving minor system issues to ensure smooth functionality.
- Monitored and reported security footage from digital surveillance systems, contributing to guest safety and enhancing facility security protocols.

Guest Services Coordinator

One Hudson Park Real Estate

August 2021 – November 2021

- Managed a database for over 200+ incoming packages, efficiently organizing and tracking items in a secure storage unit.
- Monitored security cameras and managed deliveries, ensuring a safe and organized environment for residents.
- Distributed packages and facilitated resident requests, including providing spare keys and managing building amenities.
- Administered calls for real estate agents, coordinating appointments and managing schedules effectively.

VOLUNTEER EXPERIENCE

Volunteer

Medshare

2016 – 2020

- Contributed to a 501(c)(3) humanitarian non-profit focused on retrieving surplus medical supplies from U.S. hospitals and manufacturers, redistributing them to under-resourced hospitals in developing countries and underserved communities globally.
- Packaged and organized medical supplies, ensuring proper labeling and distribution to hospitals in need, supporting global healthcare efforts.
- Played a key role in streamlining the supply chain process, enabling efficient delivery of critical medical resources to communities facing health crises.

TECHNICAL SKILLS & CERTIFICATIONS

Operating Systems: MS Windows, macOS

Programming/Development: HTML/CSS, Bootstrap, Java, Python, C, JavaScript, Lisp, Arduino, Shell Scripting

Data Analysis & Machine Learning: Weka, Jupyter Notebook

Database Management: MySQL

Additional Skills: MS Office, Adobe Creative Suite, Canva, CapCut, & Trilingual in English, Spanish and Japanese
